Index to volume 55

Author index*

A

AHLSTEDT, S., ERIKSSON, N., LINDGREN, S., and ROTH, A., *18* (Abst.)
ALLISON, A. C., and GREGORIADIS, G., *29* (Abst.)
ANTONUCCI, M. J. (*See* MATHÉ, A. A., et al.), 170
ATKINSON, J. P. (*See* JAFFE, C. J., et al.), 386
AVILA, R., and LACEY, J., *12* (Abst.)

B

BAER, H. (*See* FRANKLIN and BAER), 285
BASS, R. M., POTTER, E. V., and BARNEY, P. L., *8* (Abst.)
BAUM, J. (*See* GROSSMAN, J., et al.), 268
BEALL, G. N. (*See* SOKOL and BEALL), 310
BEAVEN, M. A. (*See* KAPLAN, A. P., et al.), 394
BEKIER, E., WYCZOLKOWSKA, H., and MASLINSKI, C., *38* (Abst.)
BENACERRAF, B. (*See* KATZ, D. H., et al.), 403
BENAIM, C., 203 (Brief communication)
BENNETT, J. E. (*See* SCHIMPFF and BENNETT), 430
BERGMAN, R. K., and MUNOZ, J. J., 378
BERNSTEIN, H., SHUPACK, J., and ACKERMAN, A. B., *10* (Abst.)
BIANCO, S., GRIFFIN, J. P., KAMBUROFF, P. L., and PRIME, F. J., *26* (Abst.)
BLACK, J. W. (*See* NELSON, H. S., et al.), 299
BLOCH, K. J. (*See* OHMAN, J. L., JR., et al.), 16
BLUMBERG, M. Z., 207 (Correspondence)
BRANCH, L. B. (*See* NELSON, H. S., et al.), 299
BRENTJENS, J. R., O'CONNELL, D. W., PAWLOWSKI, I. B., and ANDRES, G. A., *14* (Abst.)
BROWN, H. M., and STOREY, G., *40* (Abst.)
BUCKLE, F. G., and COHEN, A. B., 213
BURSTON, T. O. (*See* GROVE, D. I., et al.), 152
BUSSE, W. W., REED, C. E., LICHTENSTEIN, L. M., and REISMAN, R. E., *41* (Abst.)

C

CASSIDY, J. T., and NORDBY, G. L., 35
CHANDRA, R. K., *3* (Abst.)
CHARPIN, J. (*See* OREHEK, J., et al.), 164
CLAMAN, H. N., 145
CLAMAN, L. N. (*See* SLAVIN, R. G., et al.), 222
COHAN, R. (*See* RHOADES, R. B., et al.), 180
COHEN, A. B. (*See* BUCKLE and COHEN), 213
CONDEMI, J. J. (*See* GROSSMAN, J., et al.), 268
COOKE, N. J., KERR, J. A., WILLEY, R. F., and HOARE, M. V., *2* (Abst.)
CORMANE, R. H., *27* (Abst.)
COTE, C. J., MEUWISSEN, H. J., and PICKERING, R. J., *4* (Abst.)
CRIEP, L. (*See* WHITESIDE, T. L., et al.), 186

D

DALY, J. R., FLETCHER, M. R., GLASS, D., CHAMBERS, D. J., BITENSKY, L., and CHAYEN, J., *2* (Abst.)
DANARAJ, T. J. (*See* NEVA, F. A., et al.), 422
DAVIS, D. J., 370
DECICCO, F. A. (*See* ROSENBERG, T. F., et al.), 56 (Allergy grand rounds)
DI BERNARDO, R. L. (*See* KLAUSTERMEYER, W. B., et al.), 325
DUCKWORTH, W. C., MASI, A. T., and KITABCHI, A. E., *11* (Abst.)

E

ELLIS, E. F. (*See* REIMER, L. G., et al.), 224
EPSTEIN, W., BAER, H., DAWSON, C. R., and KHURANA, R. G., *10* (Abst.)

F

FARID, N. R., VON WESTARP, C., ROW, V. V., and VOLPE, R., *16* (Abst.)
FERRARESI, R. W., ROOKS, W. H., II, NAKANO, G. M., RINGOLD, H. J., and KIDSON, C., 25
FIREMAN, P. (*See* ROSENBERG, T. F., et al.), 56 (Allergy grand rounds)
FITCHEIT, D. H., MCNICOL, M. W., and RIORDAN, J. F., *40* (Abst.)
FORBES, I. J. (*See* GROVE, D. I., et al.), 152
FORD, R. M. (*See* GROVE, D. I., et al.), 152
FRANK, M. M. (*See* JAFFE, C. J., et al.), 386

*January, pp. 1-68; February, pp. 69-144; March, pp. 145-212; April, pp. 213-284; May, pp. 285-366; June, pp. 367-462.

Abstracts: January, pp. *1-8;* February, pp. *9-16;* March, pp. *17-24;* April, pp. *25-32;* May, pp. *33-38*; June, pp. *39-44.*

FRANKLAND, A. W., and PARISH, W. E., *19* (Abst.)
FRANKLIN, R., and BAER, H., 285
FRIZZERA, G., MORAN, E. M., and RAPPAPORT, H., *4* (Abst.)
FROEHLICH, L. A., 372
FUSNER, J. (*See* GROSSMAN, J., et al.), 268

G

GAY, W. I., 367 (Editorial)
GAYRARD, P. (*See* OREHEK, J., et al.), 164
GEHA, R. S., SCHNEEBERGER, E., MERLER, E., and ROSEN, F. S., *7* (Abst.)
GELFAND, J. A. (*See* JAFFE, C. J., et al.), 386
GELLER, B. (*See* HOFFMAN, D. R., et al.), 256
GIBSON, G. J., MABERLY, D. J., LAL, S., ALI, M. M., and BUTLER, A. G., *34* (Abst.)
GLEICH, G. J., and JONES, R. T., 334, 346
—. (*See* HENDERSON, L. L., et al.), 10
GLUCKMAN, J. (*See* GROSSMAN, J., et al.), 268
GODFREY, S., and KONIG, P., *26* (Abst.)
GRAY, L. (*See* KAPLAN, A. P., et al.), 394
—. (*See* NEVA, F. A., et al.), 422
GREAVES, M. W., PLUMMER, V. M., MCLAUGHLAN, P., and STANWORTH, D. R., *31* (Abst.)
GREENE, B. M., and COLLEY, D. G., *22* (Abst.)
GRIMAUD, C. (*See* OREHEK, J., et al.), 164
GRISWOLD, W. R., KOSS, M., CHERNACK, W. J., WEIL, R., SUTPHEN, J., and RAWLE, M. M., *20* (Abst.)
GROSSMAN, J., BAUM, J., GLUCKMAN, J., FUSNER, J., and CONDEMI, J. J., 268
— and PUTNAM, J. S., 49
GROVE, D. I., BURSTON, T. O., WELLBY, M. L., FORD, R. M., and FORBES, I. J., 152

H

HADDAD, Z. (*See* HOFFMAN, D. R., et al.), 256
HALE, F. C. (*See* KLAUSTERMEYER, W. B., et al.), 325
HANSEN, P. J., and PENNY, R., *23* (Abst.)
HAYES, J. V. (*See* RAYNOR, G. S., et al.), 195
HAZUCHA, M., SILVERMAN, F., PARENT, C., FIELD S., and BATES, D., *35* (Abst.)
HEMMINGSEN, H. (*See* TALMAGE and HEMMINGSEN), 442
HENDERSON, L. L., LARSON, J. B., and GLEICH, G. J., 10
HOFFMAN, D. R., YAMAMOTO, F. Y., GELLER, B., and HADDAD, Z., 256
HORAKOVA, Z. (*See* KAPLAN, A. P., et al.), 394
HUANG, J. T., *37* (Abst.)
HUHTI, E., MOKKA, T., NIKOSELAINEN, J., and HALONEN, P., *18* (Abst.)

J

JAFFE, C. J., ATKINSON, J. P., GELFAND, J. A., and FRANK, M. M., 386
JONES, D. G., and KAY, A. B., *7* (Abst.)
JONES, R. T. (*See* GLEICH and JONES), 334, 346

K

KAILIN, E. W. (*See* SLAVIN, R. G., et al.), 222
KAPLAN, A. P., GRAY, L., SHAFF, R. E., HORAKOVA, Z., and BEAVEN, M. A., 394
—. (*See* NEVA, F. A., et al.), 422
KATZ, D. H., STECHSCHULTE, D. J., and BENACERRAF, B., 403
KENAKIN, T. P., KRUEGER, C. A., and COOK, D. A., *28* (Abst.)
KIDSON, C. (*See* FERRARESI, R. W., et al.), 25
KIRKPATRICK, C. H., 411
KLAUSTERMEYER, W. B., DI BERNARDO, R. L., and HALE, F. C., 325
KOHLER, P. F., PERCEY, J., CAMPION, W. M., and SMYTH, C. J., *32* (Abst.)
KÖNIG, W., and ISHIZAKA, K., *29* (Abst.)
KONTOU-KARAKITSOS, K., SALVAGGIO, J. E., and MATHEWS, K. P., 241

L

LARSON, J. B. (*See* HENDERSON, L. L., et al.), 10
LEIFER, K. N. (*See* RHOADES, R. B., et al.), 180
LEVINE, B. I. (*See* MATHÉ, A. A., et al.), 170
LEVINE, M. I., 276
—. (*See* SLAVIN, R. G., et al.), 222
LOWELL, F. C. (*See* OHMAN, J. L., JR., et al.), 16
LUCKASEN, J. R., SABAD, A., GOLTZ, R. W., and KERSEY, J. H., *35* (Abst.)

M

MANGI, R. J., NIEDERMAN, J. C., KELLEHER, J. E., JR., DWYER, J. M., EVANS, A. S., and KANTOR, F. S., *42* (Abst.)
MATHÉ, A. A., LEVINE, B. I., and ANTONUCCI, M. J., 170
MATHEWS, K. P. (*See* KONTOU-KARAKITSOS, K., et al.), 241
Medical Research Council, Brompton Hospital, *27* (Abst.)
MEDSGER, T. A., JR. (*See* ROSENBERG, T. F., et al.), 56 (Allergy grand rounds)
MENDES, N. F., KOPERSZTYCH, S., and MOTA, N. B. S., *5* (Abst.)
MILLER, J. F. A. P., 1

Subject index*

A

Acetylcholine, inhaled, in normal subjects, effect of beta adrenergic blockade on (Orehek, J., et al.), 164

Adrenergic blockade, beta, effect of, on bronchial sensitivity to inhaled acetylcholine in normal subjects (Orehek, J., et al.), 164

Aerosol(s), beclomethasone dipropionate, in treatment of seasonal asthma and hay fever, *40* (Abst.)

Rimiterol and salbutamol, administered by intermittent positive-pressure ventilation, response to, *2* (Abst.)

Agammaglobulinemia, "acquired" or common variable, heterogeneity of, 7 (Abst.)

Aging and acute illness, effect of, on delayed hypersensitivity (Grossman, J., et al.), 268

immune response and mortality, *37* (Abst.)

Air pollution episodes, guidelines for asthmatic patient during (Slavin, R. G., et al.), 222

Airborne particles, some, microculture method for (Benaim, C.), 203 (Brief communication)

pollen concentrations, spatial variability in (Raynor, G. S., et al.), 195

Airway obstruction, small, in allergic rhinitis (Grossman and Putnam), 49

Allergens, birch pollen, timothy pollen and dog epithelium, allergy diagnosis with, *18* (Abst.)

comparative nasal absorption of, in atopic and nonatopic subjects (Kontou-Karakitsos, K., et al.), 241

extracted from rat, mouse, guinea pig, and rabbit pelts, characterization of (Ohman, J. L., Jr., et al.), 16

of mammalian origin. II. Characterization of allergens extracted from rat, mouse, guinea pig, and rabbit pelts (Ohman, J. L., Jr., et al.), 16

Allergic, Asthma and, Disease Centers Workshop (Froehlich, L. A.), 372

granulomatous angiitis (Churg-Strauss syndrome) (Rosenberg, T. F., et al.), 56 (Allergy grand rounds)

Allergic—Cont'd

responses, delayed, of transfer factor donors, ability to develop (Kirkpatrick, C. H.), 411

rhinitis, small airway obstruction in (Grossman and Putnam), 49

Allergy(ies) Foundation of America Self-Assessment Program, 207 (Correspondence)

miscellaneous, *12, 19, 29, 41* (Absts.)

respiratory, measurement of prevalence of, by interview questionnaire (Schachter, J.), 249

American Academy of Allergy, abstracts of papers given at annual meeting, 69-139

Board of Allergy and Immunology, Report on 1974 Certifying Examination, 140

Anaphylactic mediators, passive sensitization of guinea-pig skin in vitro for antigen-induced release of, 7 (Abst.)

sensitivity to human seminal fluid, *19* (Abst.)

Anaphylaxis, *7, 38* (Absts.)

bee sting, immunotherapy in, *41* (Abst.)

cortisol and, influence of, uptake of catecholamines in guinea pig lung (Mathé, A. A., et al.), 170

inactivation of slow reacting substance of, by human eosinophil arylsulfatase, *44* (Abst.)

Angiitis, allergic granulomatous (Churg-Strauss syndrome (Rosenberg, T. F., et al.), 56 (Allergy grand rounds)

Angioedema, hereditary (Jaffe, C. J., et al.), 386

and "familial" lupus erythematosus in identical twin boys, *32* (Abst.)

Announcements, 68, 211, 284

Antibody(ies), antigen and, glomerular localization of, in rabbits following intravenous administration of serum cryoproteins from homologous animals with acute serum sickness, *20* (Abst.)

*January, pp. 1-68; February, pp. 69-144; March, pp. 145-212; April, pp. 213-284; May, pp. 285-366; June, pp. 367-462.

Abstracts: January, pp. *1-8;* February, pp. *9-16;* March, pp. *17-24;* April, pp. *25-32;* May, pp. *33-38;* June, pp. *39-44.*

Antibody(ies)—Cont'd
to glomerular basement membrane, glomerulonephritis associated with, *30* (Abst.)
IgE, maximal rise in, following ragweed pollination season (Henderson, L. L., et al.), 10
measurement of, by radioallergosorbent test (Gleich and Jones), 334, 346
specific IgE, in atopic eczema (Hoffman, D. R., et al.), 256
Antigen(s)-antibody complexes, circulating, in kidneys of rabbits with chronic serum sickness, extra-glomerular lesions associated with deposition of, *14* (Abst.)
and antibody in rabbits, glomerular localization of, following intravenous administration of serum cryoproteins from homologous animals with acute serum sickness, *20* (Abst.)
-evoked histamine release from human skin, effect of disodium cromoglycate on, *34* (Abst.)
-induced release of anaphylactic mediators, passive sensitization of guinea-pig skin in vitro for, *7* (Abst.)
injections, cutaneous pseudolymphoma resulting from, *10* (Abst.)
pigeon, study of cell-mediated immune response to, by lymphocyte culture technique, *23* (Abst.)
placental, onset of human maternal cell-mediated immune reaction to, during first pregnancy, *6* (Abst.)
Antihistaminic drugs, three, suppression of histamine-induced pruritus by (Rhoades, R. B., et al.), 180
Arylsulfatase, human eosinophil, inactivation of slow reacting substance of anaphylaxis by, *44* (Abst.)
Asthma and Allergic Disease Centers Workshop (Froehlich, L. A.), 372
association of viral and mycoplasma infections with exacerbations of, *18* (Abst.)
chronic bronchial, double-blind trial comparing two dosage schedules of beclomethasone dipropionate aerosol in treatment of, *27* (Abst.)
bronchial, intravenous isoproterenol and (Klaustermeyer, W. B., et al.), 325
exercise-induced, prevention of, by Indoramin, *26* (Abst.)
extrinsic, atopic rhinitis and, nasal mucosal hyperpermeability to macromolecules in (Buckle and Cohen), 213
and hay fever, *2*, *18*, *26*, *34*, *40* (Absts.)
seasonal, beclomethasone dipropionate aerosol in treatment of, *40* (Abst.)
humoral and cellular immunity in (Grove, D. I., et al.), 152
-like symptoms and eosinophilia, inhibitory effect of nicotinamide on, *38* (Abst.)
Asthma—Cont'd
treatment with aerosol steroid beclomethasone dipropionate, *26* (Abst.)
Asthmatic children, growth of, during treatment with alternate-day steroids (Reimer, L. G., et al.), 224
individuals, normal and, leukocytic epinephrine receptors of (Sokol and Beall), 310
patient(s) as compared to normal people, effect of maximal respiratory maneuvers on bronchial sensitivity of, *41* (Abst.)
guidelines for, during air pollution episodes (Slavin, R. G., et al.), 222
Atopic eczema, specific IgE antibodies in (Hoffman, D. R., et al.), 256
and nonatopic subjects, comparative nasal absorption of allergens in (Kontou-Karakitsos, K., et al.), 241
Autoantibodies, occurrence of, in infectious mononucleosis, *36* (Abst.)
Azathioprine, prednisone and, administered to mother during pregnancy, effects on neonate of, *4* (Abst.)

B

B lymphocytes in rats, immunoglobulin E, induction of immunological tolerance in (Katz, D. H., et al.), 403
T and, in atopic eczema, *35* (Abst.)
and T cells(s) in dermatitis, *27* (Abst.)
stimulating activities of multiple mitogens from pokeweed, *36* (Abst.)
Beclomethasone dipropionate, aerosol steroid, treatment of asthma with, *26* (Abst.)
in treatment of chronic bronchial asthma, double-blind trial comparing two dosage schedules of, *27* (Abst.)
of seasonal asthma and hay fever, *40* (Abst.)
intranasal, and placebo in perennial rhinitis, double-blind cross-over trial comparing, *34* (Abst.)
Bee sting anaphylaxis, immunotherapy in, *41* (Abst.)
Bordetella pertussis extract and vasoactive amines, effect of, on vascular permeability (Bergman and Munoz), 378
Bronchial asthma, intravenous isoproterenol and (Klaustermeyer, W. B., et al.), 325
lumen, respiratory mast cells and basophiloid cells secreted into, *13* (Abst.)
sensitivity of asthmatic patients compared to normal people, effect of respiratory maneuvers on, *41* (Abst.)
to inhaled acetylcholine in normal subjects, effect of beta adrenergic blockade on (Orehek, J., et al.), 164

C

Carrageenin, use of, as adjuvant of delayed hypersensitivity, *19* (Abst.)
Catecholamines, uptake of, in guinea pig lung; influence of cortisol and anaphylaxis (Mathé, A. A., et al.), 170
Cell(s) bound IgE, serum and, in chronic urticaria, *31* (Abst.)
-mediated immunity, abnormalities in, in patients with *Cryptococcus neoformans* infection (Schimpff and Bennett), 430
depression of, during acute infectious mononucleosis, *42* (Abst.)
respiratory mast and basophiloid, secreted into bronchial lumen, *13* (Abst.)
stimulating, macrophage (Talmage and Hemmingsen), 442
Cellular immunity, humoral and, in asthma (Grove, D. I., et al.), 152
interactions in immune response, significance of (Miller, J. F. A. P.), 1
Cholera toxin, effects of, on immunoglobulin production and cyclic AMP levels in tonsillar lymphocytes, *15* (Abst.)
Cholinergic urticaria, in vivo studies of mediator release in cold urticaria and (Kaplan, A. P., et al.), 394
Chronic urticaria (Levine, M. I.), 276 (Allergy rounds)
Churg-Strauss syndrome (Rosenberg, T. F., et al.), 56 (Allergy grand rounds)
Commitment, foresight and (Gay, W. I.), 367 (Editorial)
Compound 48/80, ragweed and, histologic studies of human skin test responses to; effects of corticosteroid therapy (Slott and Zweiman), 232
Contrast media, radiographic, administration of, to patients with history of previous reaction (Schatz, M., et al.), 358
Cork industry, respiratory disease in workers in, *12* (Abst.)
Corticosteroid(s), how they work (Claman, H. N.), 145
therapy, effects of; histologic studies of human skin test responses to ragweed and compound 48/80 (Slott and Zweiman), 232
treatment, corticotropin and, long-term, comparison of effects of, on responses of plasma growth hormone, ACTH, and corticosteroid to hypoglycaemia, *2* (Abst.)
Corticotropin and corticosteroid treatment, long-term, comparison of effects of, on responses of plasma growth hormone, ACTH, and corticosteroid to hypoglycaemia, *2* (Abst.)
Cortisol and anaphylaxis, influence of; uptake of catecholamines in guinea pig lung (Mathé, A. A., et al.), 170
Cortisol—Cont'd
maternal, conversion of, to cortisone during placental transfer to human fetus, *3* (Abst.)
therapy, low-dose, effect of, on epinephrine excretion in man, *11* (Abst.)
Cortisone, conversion of maternal cortisol to, during placental transfer to human fetus, *3* (Abst.)
Cryoproteins, serum, from homologous animals with acute serum sickness, intravenous administration of, glomerular localization of antigen and antibody in rabbits following, *20* (Abst.)
Cryptococcus neoformans infection, abnormalities in cell-mediated immunity in patients with (Schimpff and Bennett), 430

D

Dermatitis, B and T cells in, *27* (Abst.)
Dermatology, 10, *27*, *34* (Absts.)
Disease(s) Centers Workshop, Asthma and Allergic (Froehlich, L. A.), 372
neurological, serum IgE concentrations in, *37* (Abst.)
Disodium cromoglycate, effect of, on antigen-evoked histamine release from human skin, *34* (Abst.)
Drugs, three antihistaminic, suppression of histamine-induced pruritus by (Rhoades, R. B., et al.), 180
Dysproteinaemia, angio-immunoblastic lymphadenopathy with, *4* (Abst.)

E

Eczema, atopic, specific IgE antibodies in (Hoffman, D. R., et al.), 256
T and B lymphocytes in, *35* (Abst.)
Eosinophil(s) arylsulfatase, human, inactivation of slow reacting substance of anaphylaxis by, *44* (Abst.)
and immune mechanisms; partial characterization of lymphokine eosinophil stimulation promoter, *22* (Abst.)
Eosinophilia, inhibitory effect of nicotinamide on asthma-like symptoms and, *38* (Abst.)
tropical (Neva, F. A., et al.), 422
Ephedrine, epinephrine and, subsensitivity to epinephrine following administration to normal individuals (Nelson, H. S., et al.), 299
Epinephrine excretion in man, effect of low-dose cortisol therapy on, *11* (Abst.)
receptors, leukocytic, of normal and asthmatic individuals (Sokol and Beall), 310
subsensitivity to, following administration of epinephrine and ephedrine to normal individuals (Nelson, H. S., et al.), 299
Exercise-induced asthma, prevention of, by Indoramin, *26* (Abst.)

F

Fetus, human, conversion of maternal cortisol to cortisone during placental transfer to, *3* (Abst.)
Foresight and commitment (Gay, W. I.), 367 (Editorial)

G

Glomerular localization of antigen and antibody in rabbits following intravenous administration of serum cryoproteins from homologous animals with acute serum sickness, *20* (Abst.)
Glomerulonephritis associated with antibody to glomerular basement membrane, *30* (Abst.)
Granulomatous angiitis, allergic (Churg-Strauss syndrome) (Rosenberg, T. F., et al.), 56 (Allergy grand rounds)
Graves' disease, studies of cell-mediated immunity (CMI) in relatives of patients with, *16* (Abst.)
Guinea pig(s) lung, uptake of catecholamines in; influence of cortisol and anaphylaxis (Mathé, A. A., et al.), 170
  modulation of immune response of, by repeated BCG scarification, *43* (Abst.)
  pelts, characterization of allergens extracted from (Ohman, J. L., Jr., et al.), 16
  skin, passive sensitization of, in vitro, for antigen-induced release of anaphylactic mediators, *7* (Abst.)

H

Hay fever, asthma and, *2*, *18*, *26*, *34*, *40* (Absts.)
  seasonal, asthma and, beclomethasone dipropionate aerosol in treatment of, *40* (Abst.)
Hereditary angioedema (Jaffe, C. J., et al.), 386
  and "familial" lupus erythematosus in identical twin boys, *32* (Abst.)
Heterogeneity of "acquired" or common variable agammaglobulinemia, *7* (Abst.)
Histamine H_1 and H_2 receptors in guinea pig ileum, temperature-dependent interconversion of, *28* (Abst.)
  -induced pruritus, suppression of, by three antihistaminic drugs (Rhoades, R. B., et al.), 180
  release, antigen-evoked, from human skin, effect of disodium cromoglycate on, *34* (Abst.)
  detection of human reagins with rat peritoneal mast cells by, *21* (Abst.)
Histologic studies of human skin test responses to ragweed and compound 48/80; effects of corticosteroid therapy (Slott and Zweiman), 232
Honeybee venoms and their components from various sources, comparison of (Franklin and Baer), 285
Human reagins, detection of, with rat peritoneal mast cells by histamine release, *21* (Abst.)
Humoral and cellular immunity in asthma (Grove, D. I., et al.), 152
Hyperpermeability, nasal mucosal, to macromolecules in atopic rhinitis and extrinsic asthma (Buckle and Cohen), 213
Hypersensitivity, delayed, effect of aging and acute illness on (Grossman, J., et al.), 268
  use of carrageenin as adjuvant of, *19* (Abst.)
  skin testing, delayed; response rates in hospitalized population, *6* (Abst.)
Hypoxia, pulmonary alveolar, *11* (Abst.)

I

Ileum, guinea pig, temperature-dependent interconversion of histamine H_1 and H_2 receptors in, *28* (Abst.)
Illness, acute, effect of aging and, on delayed hypersensitivity (Grossman, J., et al.), 268
Immune mechanisms, eosinophils and; partial characterization of lymphokine eosinophil stimulation promoter, *22* (Abst.)
  -mediated reactions, selective inhibitor of elicitation of (Ferraresi, R. W., et al.), 25
  response, aging, and mortality, *37* (Abst.)
  of guinea pigs, modulation of, by repeated BCG scarification, *43* (Abst.)
  significance of cellular interactions in (Miller, J. F. A. P.), 1
Immunity, cell-mediated, abnormalities in, in patients with *Cryptococcus neoformans* (Schimpff and Bennett), 430
  depression of, during acute infectious mononucleosis, *42* (Abst.)
  in relatives of patients with Graves' disease, *16* (Abst.)
Immunoglobulin(s) concentrations, human serum: prevalence of immunoglobulin deficiencies (Cassidy and Nordby), 35
  E antibody(ies), maximal rise in, following ragweed pollination season (Henderson, L. L., et al.), 10
  measurement of, by radioallergosorbent test (Gleich and Jones), 334, 346
  specific, in atopic eczema (Hoffman, D. R., et al.), 256
  B lymphocytes in rats, induction of immunological tolerance in (Katz, D. H., et al.), 403
  concentrations, serum, in neurological diseases, *37* (Abst.)

Immunoglobulin(s), E—Cont'd
determination, specific, by RAST compared with skin and provocation tests in allergy diagnosis with birch pollen, timothy pollen and dog epithelium allergens, *18* (Abst.)
levels, serum, prevalence and familial association of atopic disease and its relationship to, *23* (Abst.)
mouse, association of receptors for, with plasma membrane of rat mast cells, *29* (Abst.)
presence of, on surface of lymphocytes in nasal polyps (Whiteside, T. L., et al.), 186
serum and cell bound, in chronic urticaria, *31* (Abst.)
in nasal polyps, immunofluorescent localization of, *8* (Abst.)
production and cyclic AMP levels in tonsillar lymphocytes, effects of pokeweed mitogen, cholera toxin and prostaglandin E on, *15* (Abst.)
Immunological adjuvants, liposomes as, *29* (Abst.)
tolerance, induction of, in immunoglobulin E B lymphocytes in rats (Katz, D. H., et al.), 403
Immunology, *4*, *13*, *20*, *29*, *36*, *42* (Absts.)
Immunotherapy in bee sting anaphylaxis, *41* (Abst.)
Indoramin, prevention of exercise-induced asthma by, *26* (Abst.)
Infection(s), *Cryptococcus neoformans*, abnormalities in cell-mediated immunity in patients with (Schimpff and Bennett), 430
viral and mycoplasma, association of, with exacerbations of asthma, *18* (Abst.)
Isoproterenol, intravenous; rationale for bronchial asthma (Klaustermeyer, W. B., et al.), 325

K

Kidneys of rabbits with chronic serum sickness, antigen-antibody complexes in, *14* (Abst.)

L

Leprosy, lepromatous, T and B lymphocytes in patients with, *5* (Abst.)
Leukaemia, chronic lymphatic, inhibition of normal lymphocyte transformation by plasma and lymphocyte factors in, *5* (Abst.)
Leukocytes from patients allergic to penicillin, migration inhibition test in, *13* (Abst.)
Leukocytic epinephrine receptors of normal and asthmatic individuals (Sokol and Beall), 310
Liposomes as immunological adjuvants, *29* (Abst.)
Lupus erythematosus, "familial," hereditary angioedema and, in identical twin boys, *32* (Abst.)
Lymphadenopathy with dysproteinaemia, angio-immunoblastic, *4* (Abst.)
Lymphocyte(s), atypical, in acute infectious mononucleosis, *43* (Abst.)
culture technique, study of cell-mediated immune response to pigeon antigens by, *23* (Abst.)
immunoglobulin E B, in rats, induction of immunological tolerance in (Katz, D. H., et al.), 403
in nasal polyps, presence of IgE on surface of (Whiteside, T. L., et al.), 186
T and B, in patients with lepromatous leprosy, *5* (Abst.)
transformation, normal, inhibition of, by plasma and lymphocyte factors in chronic lymphatic leukaemia, *5* (Abst.)
Lymphokine eosinophil stimulation promoter, partial characterization of; eosinophils and immune mechanisms, *22* (Abst.)

M

Macromolecules, nasal mucosal hyperpermeability to, in atopic rhinitis and extrinsic asthma (Buckle and Cohen), 213
Macrophage, stimulating cell (Talmage and Hemmingsen), 442
Malnutrition, rosette-forming T lymphocytes and cell-mediated immunity in, *3* (Abst.)
Maneuvers, maximal respiratory, effect of, on bronchial sensitivity of asthmatic patients as compared to normal people, *41* (Abst.)
Microculture method for some viable airborne particles (Benaim, C.), 203 (Brief communication)
Migration inhibition test in leukocytes from patients allergic to penicillin, *13* (Abst.)
Mitogens, multiple, from pokeweed, B and T cell stimulating activities of, *36* (Abst.)
Mononucleosis, acute infectious, atypical lymphocytes in, *43* (Abst.)
depression of cell-mediated immunity during, *42* (Abst.)
occurrence of autoantibodies in, *36* (Abst.)
Mortality, aging, immune response and, *37* (Abst.)
Mouse IgE, association of receptors for, with plasma membrane of rat mast cells, *29* (Abst.)
pelts, characterization of allergens extracted from (Ohman, J. L., Jr., et al.), 16
Mucosal hyperpermeability, nasal, to macromolecules in atopic rhinitis and extrinsic asthma (Buckle and Cohen), 213

N

Nasal absorption, comparative, of allergens in atopic and nonatopic subjects (Kontou-Karakitsos, K., et al.), 241
  mucosal hyperpermeability to macromolecules in atopic rhinitis and extrinsic asthma (Buckle and Cohen), 213
  polyps, immunofluorescent localization of immunogloublins in, *8* (Abst.)
    presence of IgE on surface of lymphocytes in (Whiteside, T. L., et al.), 186
Neonate, effects on, of prednisone and azathioprine administered to mother during pregnancy, *4* (Abst.)
Neurological diseases, serum IgE concentrations in, *37* (Abst.)
Nicotinamide, inhibitory effect of, on asthma-like symptoms and eosinophilia, *38* (Abst.)
Normal and asthmatic individuals, leukocytic epinephrine receptors of (Sokol and Beall), 310

O

Obituaries, 208
Oral surgery, use of fresh frozen plasma for prophylaxis for patients undergoing (Jaffe, C. J., et al.), 386
Otolaryngology and otorhinology, *8* (Absts.)
Otorhinology and otolaryngology, *8* (Absts.)
Ozone, pulmonary function in man after short-term exposure to, *35* (Abst.)

P

Pathology, pharmacology, and physiology, *2, 11, 19, 28, 35, 41* (Absts.)
Penicillin, migration inhibition test in leukocytes from patients allergic to, *13* (Abst.)
Penicillium frequentans, role of, in suberosis, *12* (Abst.)
Pharmacology, physiology, and pathology, *2, 11, 19, 28, 35, 41* (Absts.)
Physiology, pharmacology, and pathology, *2, 11, 19, 28, 35, 41* (Absts.)
Pigeon-breeder's disease, *23* (Abst.)
Plasma, fresh frozen, use of, for prophylaxis in patients undergoing oral surgery (Jaffe, C. J., et al.), 386
  and lymphocyte factors in chronic lymphatic leukaemia, inhibition of normal lymphocyte transformation by, *5* (Abst.)
Poison oak hyposensitization, *10* (Abst.)
Pokeweed mitogen, effects of, on immunoglobulin production and cyclic AMP levels in tonsillar lymphocytes, *15* (Abst.)
  multiple mitogens from, B and T cell stimulating activities of, *36* (Abst.)
Pollen, birch and timothy, and dog epithelium allergens, allergy diagnosis with, *18* (Abst.)
  concentrations, airborne, spatial variability in (Raynor, G. S., et al.), 195
Pollination season, ragweed, maximal rise in IgE antibody following (Henderson, L. L., et al.), 10
Pollution episodes, air, guidelines for asthmatic patients during (Slavin, R. G., et al.), 222
Polyps, nasal, immunofluorescent localization of immunoglobulins in, *8* (Abst.)
  presence of IgE on surface of lymphocytes in (Whiteside, T. L., et al.), 186
Prednisone and azathioprine administered to mother during pregnancy, effects on neonate of, *4* (Abst.)
Pregnancy, first, onset of human maternal cell-mediated immune reaction to placental antigens during, *6* (Abst.)
Prostaglandin(s) E, effects of, on immunoglobulin production and cyclic AMP levels in tonsillar lymphocytes, *15* (Abst.)
Pruritus, histamine-induced, suppression of, by three antihistaminic drugs (Rhoades, R. B., et al.), 180
Pseudolymphoma, cutaneous, resulting from antigen injections, *10* (Abst.)
Pulmonary alveolar hypoxia, *11* (Abst.)
  function in man after short-term exposure to ozone, *35* (Abst.)

R

Rabbits with chronic serum sickness, extraglomerular lesions associated with deposition of circulating antigen-antibody complexes in kidneys of, *14* (Abst.)
  glomerular localization of antigen and antibody in, *20* (Abst.)
  pelts, characterization of allergens extracted from (Ohman, J. L., Jr., et al.), 16
Radioallergosorbent test, measurement of IgE antibodies by (Gleich and Jones), 334, 346
Radiographic contrast media, administration of, to patients with history of previous reaction (Schatz, M., et al.), 358
Ragweed and compound 48/80, histologic studies of human skin test responses to; effects of corticosteroid therapy (Slott and Zweiman), 232
  pollination season, maximal rise in IgE antibody following (Henderson, L. L., et al.), 10
Rat(s), immunoglobulin E B lymphocytes in, induction of immunological tolerance in (Katz, D. H., et al.), 403

Rat(s)—Cont'd
mast cells, association of receptors for mouse IgE with plasma membrane of, *29* (Abst.)
pelts, characterization of allergens extracted from (Ohman, J. L., Jr., et al.), 16
peritoneal mast cells, detection of human reagins with, by histamine release, *21* (Abst.)
Reaction(s), immune-mediated, selective inhibitor of elicitation of (Ferraresi, R. W., et al.), 25
previous, administration of radiographic contrast media to patients with history of (Schatz, M., et al.), 358
Reflections (Davis, D. J.), 370
Respiratory allergies, measurement of prevalence of, by interview questionnaire (Schachter, J.), 249
disease in workers in cork industry, *12* (Abst.)
maneuvers, maximal, effect of, on bronchial sensitivity of asthmatic patients as compared to normal people, *41* (Abst.)
mast cells and basophiloid cells secreted into bronchial lumen, *13* (Abst.)
Rhinitis, allergic, small airway obstruction in (Grossman and Putnam), 49
atopic, and extrinsic asthma, nasal mucosal hyperpermeability to macromolecules in (Buckle and Cohen), 213
perennial, double-blind cross-over trial comparing intranasal beclomethasone dipropionate and placebo in, *34* (Abst.)
Rimiterol and salbutamol aerosols administered by intermittent positive-pressure ventilation, response to, *2* (Abst.)

S

Salbutamol, intravenous, in management of status asthmaticus, *40* (Abst.)
Rimiterol and, administered by intermittent positive-pressure ventilation, response to, *2* (Abst.)
Scarification, repeated BCG, modulation of immune response of guinea pigs by, *43* (Abst.)
Seminal fluid, human, anaphylactic sensitivity to, *19* (Abst.)
Serum and cell bound IgE in chronic urticaria, *31* (Abst.)
immunoglobulin concentrations, human: prevalence of immunoglobulin deficiences (Cassidy and Nordby), 35
E concentrations in neurological diseases, *37* (Abst.)
levels, prevalence and familial association of atopic disease and its relationship to, *23* (Abst.)
sickness, chronic, extra-glomerular lesions associated with deposition of circulating antigen-antibody complexes in kidneys of rabbits with, *14* (Abst.)
Skin test–negative subjects, ability to develop delayed allergic responses of transfer factor (Kirkpatrick, C. H.), 411
responses to ragweed and compound 48/80, histologic studies of; effects of corticosteroid therapy (Slott and Zweiman), 232
testing, delayed hypersensitivity; response rates in hospitalized population, *6* (Abst.)
Spatial variability in airborne pollen concentrations (Raynor, G. S., et al.), 195
Status asthmaticus, intravenous salbutamol in management of, *40* (Abst.)
Steroids, alternate-day, growth of asthmatic children during treatment with (Reimer, L. G., et al.), 224
Suberosis, role of *Penicillium frequentans* in, *12* (Abst.)

T

T and B cells in dermatitis, *27* (Abst.)
lymphocytes in atopic eczema, *35* (Abst.)
cell, B and, stimulating activities of multiple mitogens from pokeweed, *36* (Abst.)
lymphocytes, rosette-forming, and cell-mediated immunity in malnutrition, *3* (Abst.)
Temperature-dependent interconversion of histamine H_1 and H_2 receptors in guinea pig ileum, *28* (Abst.)
Tonsillar lymphocytes, immunoglobulin production and cyclic AMP levels in, *15* (Abst.)
Transfer factor, properties and activities of (Kirkpatrick, C. H.), 411
Tropical eosinophilia (Neva, F. A., et al.), 422
Twin boys, identical, hereditary angioedema and "familial" lupus erythematosus in, *32* (Abst.)

U

Urticaria, chronic (Levine, M. I.), 276 (Allergy rounds)
serum and cell bound IgE in, *31* (Abst.)
cold and cholinergic, in vivo studies of mediator release in (Kaplan, A. P., et al.), 394
Urushiol, purified, evaluation of, in poison oak hyposensitization, *10* (Abst.)

V

Vascular permeability, effect of *Bordetella pertussis* extract and vasoactive amines on (Bergman and Munoz), 378
Vasoactive amines, *Bordetella pertussis* extract and, effect of, on vascular permeability (Bergman and Munoz), 378
Venoms, honeybee, and their components from various sources, comparison of (Franklin and Baer), 285

Subject index

A

Acetylcholine, response of lymphocyte guanyl cyclase to, *35* (Abst.)
Acids, polyunsaturated fatty, specific inhibitory action of, on lymphocyte transformation induced by PHA and PPD, *37* (Abst.)
Adenosine monophosphate, cyclic, -related agents, glycogenolysis and control of anaphylactic histamine release by (Okazaki, T., et al.), 243, 253
Adrenal function, effect of intranasal beclomethasone dipropionate on, *8* (Abst.)
Adrenergic drugs, systemically administered, effects of; cutaneous immediate hypersensitivity in man (Kram, J. A., et al.), 387
Aerosol, isoproterenol, cardiac response to repeated doses of, *25* (Abst.)
Aging, cigarette habit and mortality; relation of pulmonary function to; Framingham study, *26* (Abst.)
Allergens, common, immunological reactions to *A. fumigatus* and, *24* (Abst.)
  isolation of, from green pea (Malley, A., et al.), 282
Allergic contact dermatitis in hand eczema, *3* (Abst.)
  emergencies, factitious; anaphylaxis and laryngeal "edema" (Patterson and Schatz), 152 (Allergy grand rounds)
  rhinitis, intranasal beclomethasone dipropionate in, *25* (Abst.)
    patients, asthmatic and, and control subjects, bronchial sensitivity to methacholine in (Townley, R. G., et al.), 429

July, pp. 1-82; August, pp. 83-160; September, pp. 161-242; October, pp. 243-328; November, pp. 329-416; December, pp. 417-526.

Abstracts: July, pp. *1-6;* August, pp. *7-14;* September, pp. *15-22;* October, pp. *23-30;* November, pp. *31-38;* December, pp. *39-46.*

Allergy(ies), clinical, some untested diagnostic and therapeutic procedures in (Lowell, F. C.), 168 (Editorial)
to human seminal fluid, *10* (Abst.)
immunoglobulin E and, development of, in infancy (Orgel, H. A., et al.), 296
miscellaneous, *5*, *10*, *18*, *27* (Absts.)
occupational, in allergy-immunology laboratory and research workers, immediate-type hypersensitivity to bean lectin source with commentary on (Kanellakes and Mathews), 407
reaginic, radioallergosorbent test in diagnosis of, *28* (Abst.)
review of controversial diagnostic and therapeutic techniques employed in (Golbert, T. M.), 170
Society Fee and Practice Survey, Wisconsin (Soifer, M. M., et al.), 117
stinging insect; detection and clinical significance of venom IgE antibodies (Reisman, R. E., et al.), 443

Alternaria, primary interaction between antibody and components of; antibodies in sera from normal, allergic, and immunoglobulin-deficient children (Schumacher, M. J., et al.), 54
immunological and chemical characteristics of labeled antigens (Schumacher, M. J., et al.), 39

American Academy of Allergy: Historian's Report, 507

Anaphylaxis, acute, associated with serum complement depletion (Tannenbaum, H., et al.), 226
eosinophil chemotactic factor of, chemotactic deactivation of human eosinophils by, *9* (Abst.)
and laryngeal "edema"; factitious allergic emergencies (Patterson and Schatz), 152 (Allergy grand rounds)

Announcements, 81, 160, 416, 512

Ant, imported fire, hypersensitivity to (Rhoades, R. B., et al.), 84

Antibody(ies) and components of Alternaria, primary interaction between; antibodies in sera from normal, allergic, and immunoglobulin-deficient children (Schumacher, M. J., et al.), 54
immunological and chemical characteristics of labeled antigens (Schumacher, M. J., et al.), 39
formation, IgE antipolymyxin B, in T cell–depleted bone marrow transplant patient (Lakin, J. D., et al.), 94
reaginic, enhancement of, in mouse by Concanavalin A, *42* (Abst.)
suppression of; induction of hapten-specific tolerance, *11* (Abst.)

Antibody(ies)—Cont'd
IgG, detection of, to deoxyribonucleic acid by radioallergosorbent test (Shimizu, M., et al.), 356
identification of, as carrier of reaginic activity in asthmatic patients (Bryant, D. H., et al.), 417
venom IgE, detection and clinical significance of; stinging insect allergy (Reisman, R. E., et al.), 443

Antigen(s), cross-reactive, and immunity to diseases caused by encapsulated bacteria (Robbins, J. B., et al.), 141
intranasally administered, secretory and humoral immunologic response of atopic and non-atopic individuals to, *36* (Abst.)
labeled, immunological and chemical characteristics of (Schumacher, M. J., et al.), 39

Antigenic composition of short ragweed plant during maturation, changes in (Larson and Gleich), 112

Antiserums, specific, to Ia antigens, inhibition of immune responses in vitro by, *13* (Abst.)

Arterial and venous Pco_2, mixed, *26* (Abst.)

Arteriography, renal, following systemic reaction to contrast material (Miller, W. L., et al.), 291

Arthus reaction in rabbit lung, light and immunofluorescent study of (Zavala, D. C., et al.), 450

Asbestos workers, HL-A system in, *27* (Abst.)

Aspergillus fumigatus and common allergens, immunological reactions to, *24* (Abst.)

Aspiration studies, transtracheal, in asthmatic patients in relapse with "infective" asthma and in subjects without respiratory disease (Berman, S. Z., et al.), 206

Aspirin intolerance; subtypes, familial occurrence, and cross-reactivity with tartrazine (Settipane and Pudupakkam), 215
-sensitive patients, relationship of inhibition of prostaglandin biosynthesis by analgesics to asthma attacks in, *2* (Abst.)

Asthma attacks in aspirin-sensitive patients, relationship of inhibition of prostaglandin biosynthesis by analgesics to, *2* (Abst.)
bronchial, appearance of basophils in sputum of patients with, *32* (Abst.)
exertional dyspnea and cough as preludes to acute attacks of, *32* (Abst.)
total eosinophil counts in management of, *40* (Abst.)
chronicity of acute attacks of—mechanical and therapeutic implications (McFadden, E. R., Jr.), 18
exercise-induced—clinical, physiological, and therapeutic implications (Godfrey, S.), 1

Asthma—Cont'd
extrinsic, atropine, sodium cromoglycate, and thymoxamine in PGF_2-induced bronchoconstriction in, *40* (Abst.)
bronchial, response of lymphocyte guanyl cyclase to propranolol, noradrenaline, thymoxamine, and acetylcholine in, *35* (Abst.)
and hay fever, *2*, *8*, *16*, *25*, *32*, *40* (Absts.)
mortality associated with pneumothorax and intermittent positive-pressure breathing, *16* (Abst.)
from malignant disease in patients with, *3* (Abst.)
Asthmatic(s) and allergic rhinitis patients and control subjects, bronchial sensitivity to methacholine in (Townley, R. G., et al.), 429
children, capillary pH and blood gas determinations in (Davis, R. H., et al.), 33
increased adenosine triphosphatase activity in platelets of, *34* (Abst.)
use of humidity in (Rodriguez, G. E., et al.), 133
comparison of methacholine and histamine inhalations in (Spector and Farr), 308
patients, identification of IgG antibody as carrier of reaginic activity in (Bryant, D. H., et al.), 417
in relapse with "infective" asthma and in subjects without respiratory disease, transtracheal aspiration studies in (Berman, S. Z., et al.), 206
in remission, pulmonary function in, *8* (Abst.)
ragweed allergic, comparison of quantitative inhalation bronchial challenge in ragweed hay fever patients and (Bruce, C. A., et al.), 331
Atropine, sodium cromoglycate, and thymoxamine in PGF_2-induced bronchoconstriction in extrinsic asthma, *40* (Abst.)

B

Bacillus subtilis, observations on biphasic bronchial reactions due to inhalation of enzymes of, *29* (Abst.)
Bacteria, encapsulated, cross-reactive antigens and immunity to diseases caused by (Robbins, J. B., et al.), 141
Bacteriological and immunochemical investigations in chronic middle ear effusions, *38* (Abst.)
and immunological basis for vaccination against dental caries in rhesus monkeys, *20* (Abst.)
Basophil(s), appearance of, in sputum of patients with bronchial asthma, *32* (Abst.)
Basophil(s)—Cont'd
degranulation test, direct, and intracutaneous test; comparison using food extracts (Soifer and Hirsch), 127
human, unique serum requirement for histamine release from, *43* (Abst.)
Bean lectin source, immediate-type hypersensitivity to, with commentary on occupational allergy in allergy-immunology laboratory and research workers (Kanellakes and Mathews), 407
Beclomethasone dipropionate, intranasal, in allergic rhinitis, *25* (Abst.)
effect of, on adrenal function, *8* (Abst.)
and intra-nasal sodium cromoglycate, comparative trial, *45* (Abst.)
Birmingham hospitals, study of dust mites in, *5* (Abst.)
Blood gas determinations, capillary pH and, in asthmatic children (Davis, R. H., et al.), 33
Bone marrow transplant patient, T cell–depleted, IgE antipolymyxin B antibody formation in (Lakin, J. D., et al.), 94
Breathing, intermittent positive-pressure, asthma mortality associated with pneumothorax and, *16* (Abst.)
Bronchial asthma, appearance of basophils in sputum of patients with, *32* (Abst.)
exertional dyspnea and cough as preludes to acute attacks of, *32* (Abst.)
total eosinophil counts in management of, *40* (Abst.)
challenge, quantitative inhalation, in ragweed hay fever patients; comparison with ragweed-allergic asthmatics (Bruce, C. A., et al.), 331
inhalation challenge procedures, standardization of (Chai, H., et al.), 323
reactions, biphasic, due to inhalation of enzymes of *Bacillus subtilis*, observations on, *29* (Abst.)
sensitivity to methacholine in current and former asthmatic and allergic rhinitis patients and control subjects (Townley, R. G., et al.), 429
Bronchoprovocation, effect on priming and desensitization phenomenon in lung (Rosenthal, R. R., et al.), 338

C

Cadmium ion, modulation by; histamine release from human leukocytes (Vervloet, D., et al.), 262
Capillary pH and blood gas determinations in asthmatic children (Davis, R. H., et al.), 33
Cardiac response to repeated doses of isoproterenol aerosol, *25* (Abst.)
Cell(s), histamine and mast, in fetal rhesus monkey, ontogenic study of (Schwartz, L. W., et al.), 381

Cell(s)—Cont'd
-mediated immunity, depression of, in atopic eczema (McGeady and Buckley), 393
to gliadin within small-intestinal mucosa in coeliac disease, *16* (Abst.)
Cellular immunodeficiency, thymosin activity in patients with, *30* (Abst.)
parameters, immunologic and, mechanisms of action suggested by measurements of (Irons, J. S., et al.), 64
Chemotactic deactivation of human eosinophils by eosinophil chemotactic factor of anaphylaxis, *9* (Abst.)
Chlorpheniramine-dependent thrombocytopenia, *41* (Abst.)
Chronicity of acute attacks of asthma—mechanical and therapeutic implications (McFadden, E. R., Jr.), 18
Cigarette habit, aging and mortality, relation of pulmonary function to; Framingham study, *26* (Abst.)
smoke exposure, pulmonary function in spontaneously breathing dogs with lower airway catheters during and after, *2* (Abst.)
Circadian rhythm of DNA synthesis; standardization of tissue culture conditions for spontaneous thymidine-2-^{14}C incorporation by unstimulated normal human peripheral lymphocytes (Carter, J. B., et al.), 191
Clinical allergy, some untested diagnostic and therapeutic procedures in (Lowell, F. C.), 168 (Editorial)
Coagulation, fibrinolysis, and kinin generation, activation and control mechanisms of Hageman factor–dependent pathways of, and their contribution to inflammatory response (Kaplan and Austen), 491
Coeliac disease, cell-mediated immunity to gliadin within small-intestinal mucosa in, *16* (Abst.)
Concanavalin A, enhancement of reaginic antibody formation in mouse by, *42* (Abst.)
and other mitogens, histamine release from human leukocytes by, *4* (Abst.)
Contact hypersensitivity, in vitro lymphocyte responses in, *9* (Abst.)
sensitization of man with simple chemicals, studies on, *17* (Abst.)
Contrast material, renal arteriography following systemic reaction to (Miller, W. L., et al.), 291
medium, radiographic, administration of (Patterson and Schatz), 328 (Correspondence)
Cough, exertional dyspnea and, as preludes to acute attacks of bronchial asthma, *32* (Abst.)
Cromolyn sodium powder, effect of, as treatment for ragweed pollinosis (Leiferman, K. M., et al.), 481
Cutaneous immediate hypersensitivity in man; effects of systemically administered adrenergic drugs (Kram, J. A., et al.), 387
Cystic fibrosis, immune complexes in, *28* (Abst.)
immunological reactions to *A. fumigatus* and common allergens, *24* (Abst.)

D

Deficiency, T-cell, successful thymus graft for, in 6-year-old boy, *21* (Abst.)
Dental caries in rhesus monkeys, immunological and bacteriological basis for vaccination against, *20* (Abst.)
Deoxyribonucleic acid, detection of IgG antibody to, by radioallergosorbent test (Shimizu, M., et al.), 356
Dermatitis, allergic contact, to dinitrochlorobenzene, lymphokine production in, *17* (Abst.)
in hand eczema, *3* (Abst.)
herpetiformis, leukocyte reactivity to alpha-gliadin in, and adult coeliac disease, *43* (Abst.)
Dermatology, *3*, *9*, *17*, *33* (Absts.)
Dermatoses, control, biopsies of psoriasis and; studies in immunodermatology, *33* (Abst.)
Diagnostic and therapeutic procedures in clinical allergy, some untested (Lowell, F. C.), 168 (Editorial)
techniques employed in allergy, controversial, review of (Golbert, T. M.), 170
Diarrhea, lifelong, control of, by ingested disodium cromoglycate, *5* (Abst.)
Dihydroxypropyltheophylline, pharmacokinetics of; basis for rational therapy (Simons, F. E. R., et al.), 347
Dinitrochlorobenzene, lymphokine production in allergic contact dermatitis to, *17* (Abst.)
Disodium cromoglycate, ingested, control of lifelong diarrhea by, *5* (Abst.)
Domestic interiors, assessing fungus prevalence in (Solomon, W. R.), 235
Dyspnea, exertional, and cough as preludes to acute attacks of bronchial asthma, *32* (Abst.)

E

Eczema, atopic, depression of cell-mediated immunity in (McGeady and Buckley), 393
hand, allergic contact dermatitis in, *3* (Abst.)
"Edema," laryngeal, anaphylaxis and; factitious allergic emergencies (Patterson and Schatz), 152 (Allergy grand rounds)
Editor, comments by, 83 (Editorial)

Enzymes of *Bacillus subtilis*, inhalation of, observations on biphasic bronchial reactions due to, *29* (Abst.)
Eosinophil(s) counts, total, in management of bronchial asthma, *40* (Abst.)
human, chemotactic deactivation of, by eosinophil chemotactic factor of anaphylaxis, *9* (Abst.)
levels, immunoglobulin E and, in atopic and non-atopic populations infested with hookworm, *12* (Abst.)
response, SECA, new mediator of (Robinson and Miller), 317
Exercise-induced asthma—clinical, physiological, and therapeutic implications (Godfrey, S.), 1

F

Familial occurrence of aspirin intolerance, subtypes, and cross-reactivity with tartrazine (Settipane and Pudupakkam), 215
Fatty acids, polyunsaturated, specific inhibitory action of, on lymphocyte transformation induced by PHA and PPD, *37* (Abst.)
Fetal rhesus monkey, ontogenic study of histamine and mast cells in (Schwartz, L. W., et al.), 381
Fibrinolysis, coagulation, and kinin generation, activation and control mechanisms of Hageman factor–dependent pathways of, and their contribution to inflammatory response (Kaplan and Austen), 491
Fibrosis, cystic, immune complexes in, *28* (Abst.)
Food extracts, comparison using; direct basophil degranulation test and intracutaneous test (Soifer and Hirsch), 127
Framingham study in relation of aging, cigarette habit and mortality to pulmonary function, *26* (Abst.)
Fungus prevalence, assessing, in domestic interiors (Solomon, W. R.), 235

G

Gliadin, cell-mediated immunity to, within small-intestinal mucosa in coliac disease, *16* (Abst.)
Glucose, glycogen and, role of, in control of anaphylactic histamine release (Okazaki, T., et al.), 243
Glycogenolysis and control of anaphylactic histamine release by cyclic adenosine monophosphate–related agents (Okazaki, T., et al.), 243, 253
Goodpasture's syndrome, recovery from, after immunosuppressive treatment and plasmapheresis, *37* (Abst.)
Granulomatous pneumonitis, experimental production of (Salvaggio, J., et al.), 364
Guinea pig(s), delayed-type hypersensitivity reaction in lungs of, due to potassium dichromate (Miyamoto, T., et al.), 464
trachea of, demonstration of nonadrenergic inhibitory nervous system in (Richardson and Bouchard), 473

H

Hageman factor–dependent pathways of coagulation, fibrinolysis, and kinin generation, activation and control mechanisms of, and their contribution to inflammatory response (Kaplan and Austen), 491
Hapten-specific tolerance, induction of; suppression of reaginic antibody formation, *11* (Abst.)
Hay fever, asthma and, *2*, *8*, *16*, *25*, *32*, *40* (Absts.)
patients, ragweed, quantitative inhalation bronchial challenge in; comparison with ragweed-allergic asthmatics (Bruce, C. A., et al.), 331
Histamine, antigenic release of, from human leukocytes, effect of Tris-buffered media and Tyrode physiologic saline solution on (Okazaki, T., et al.), 27
inhalations, methacholine and, in asthmatics, comparison of (Spector and Farr), 308
and mast cells in fetal rhesus monkey, ontogenic study of (Schwartz, L. W., et al.), 381
release, anaphylactic, glycogenolysis and control of, by cyclic adenosine monophosphate–related agents (Okazaki, T., et al.), 243, 253
from human basophils, unique serum requirement for, *43* (Abst.)
from human leukocytes by Concanavalin A and other mitogens, *4* (Abst.)
in vivo effect of theophylline on, *18* (Abst.)
modulation by cadmium ion (Vervloet, D., et al.), 262
Historian's Report, American Academy of Allergy, 507
HL-A system in asbestos workers, *27* (Abst.)
Hodgkin's disease, intrinsic lymphocyte defect in, analysis of phytohemagglutinin dose-response, *45* (Abst.)
Hog trypsin resulting from industrial exposure, immediate hypersensitivity to, *27* (Abst.)
Hookworm, immunoglobulin E and eosinophil levels in atopic and non-atopic populations infested with, *12* (Abst.)
House dust mite, IgE antibodies to, in sudden infant death syndrome, *18* (Abst.)
Human eosinophil response, SECA, new mediator of (Robinson and Miller), 317
Humidity in asthmatic children, use of (Rodriguez, G. E., et al.), 133

Hydrocortisone, effect of, on in vitro cellular immunity to viruses in man, *44* (Abst.)
Hymenoptera-sensitive patients, prolonged interval hyposensitization therapy in (Coleman, M., et al.), 222
Hypersensitivity, contact, in vitro lymphocyte responses in, *9* (Abst.)
cutaneous immediate, in man; effects of systemically administered adrenergic drugs (Kram, J. A., et al.), 387
immediate, to hog trypsin resulting from industrial exposure, *27* (Abst.)
-type, to bean lectin source with commentary on occupational allergy in allergy-immunology laboratory and research workers (Kanellakes and Mathews), 407
to imported fire ant (Rhoades, R. B., et al.), 84
reaction, delayed-type, in lungs of guinea pigs due to potassium dichromate (Miyamoto, T., et al.), 464
Hypogammaglobulinaemia, common variable, role of suppressor T cells in pathogenesis of, *4* (Abst.)
Hyposensitization therapy, prolonged interval, in Hymenoptera-sensitive patients (Coleman, M., et al.), 222

I

Immune complexes in cystic fibrosis, *28* (Abst.)
responses in vitro, inhibition of, by specific antiserums to Ia antigens, *13* (Abst.)
Immunity, cell-mediated, depression of, in atopic eczema (McGeady and Buckley), 393
to diseases caused by encapsulated bacteria, cross-reactive antigens and (Robbins, J. B., et al.), 141
in vitro cellular, to viruses in man, effect of hydrocortisone on, *44* (Abst.)
Immunochemical and bacteriological investigations in chronic middle ear effusions, *38* (Abst.)
Immunodeficiency(ies), cellular, thymosin activity in patients with, *30* (Abst.)
primary, immunoglobulin D–bearing lymphocytes in, *19* (Abst.)
Immunodermatology, studies in, *33, 34* (Abst.)
Immunoglobulin classes of mouse, studies on thymic dependence of, *20* (Abst.)
D–bearing lymphocytes in primary immunoficiencies, *19* (Abst.)
-deficient children, antibodies in sera from normal, allergic, and; primary interaction between antibody and components of Alternaria, 54
E and allergy, development of, in infancy (Orgel, H. A., et al.), 296
antibodies to *Dermatophagoides pteronyssinus* (house dust mite), *Aspergillus fumigatus,* and β-lactoglobulin in, *18* (Abst.)
Immunoglobulin, E, antibodies—Cont'd
globulin in sudden infant death syndrome, *18* (Abst.)
antipolymyxin B antibody formation in a T cell–depleted bone marrow transplant patient (Lakin, J. D., et al.), 94
and eosinophil levels in atopic and nonatopic populations infested with hookworm, *12* (Abst.)
levels, serum, causes of variation in, in normal populations (Grundbacher, F. J.), 104
release of leukocyte kallikrein mediated by, *42* (Abst.)
G antibody, detection of, to deoxyribonucleic acid by radioallergosorbent test (Shimizu, M., et al.), 356
identification of, as carrier of reaginic activity in asthmatic patients, (Bryant, D. H., et al.), 417
Immunologic(al) and bacteriological basis for vaccination against dental caries in rhesus monkeys, *20* (Abst.)
and cellular parameters, mechanisms of action suggested by measurements of (Irons, J. S., et al.), 64 (Allergy grand rounds)
and chemical characteristics of labeled antigens; primary interaction between antibody and components of Alternaria (Schumacher, M. J., et al.), 39
reactions to *A. fumigatus* and common allergens, *24* (Abst.)
response, secretory and humoral, of atopic and non-atopic individuals to intranasally administered antigen, *36* (Abst.)
Immunology, *4, 11, 19, 28, 36, 42* (Abst.)
Immunosuppressive treatment and plasmapheresis, recovery from Goodpasture's syndrome after, *37* (Abst.)
Immunotherapy; mechanisms of action suggested by measurements of immunologic and cellular parameters (Irons, J. S., et al.), 64 (Allergy grand rounds)
Industrial exposure to hog trypsin, immediate hypersensitivity to, *27* (Abst.)
Infancy, development of immunoglobulin E and allergy in (Orgel, H. A., et al.), 296
Infant death syndrome, sudden, IgE antibodies to *Dermatophagoides pteronyssinus* (house dust mite), *Aspergillus fumigatus,* and β-lactoglobulin in, *18* (Abst.)
Inhalation(s) bronchial challenge, quantitative, in ragweed hay fever patients; comparison with ragweed-allergic asthmatics (Bruce, C. A., et al.), 331
challenge procedures, bronchial, standardization of (Chai, H., et al.), 323
methacholine and histamine, comparison of, in asthmatics (Spector and Farr), 308

Insect allergy, stinging; detection and clinical significance of venom IgE antibodies (Reisman, R. E., et al.), 443
Insulin (U-100), new, biphasic local reaction to (Minars, N., et al.), 411
Isoproterenol aerosol, cardiac response to repeated doses of, *25* (Abst.)

J

Joint Council of Socio-Economics of Allergy, 329 (Editorial)

K

Kallikrein, leukocyte, release of, mediated by IgE, *42* (Abst.)
Kinin generation, coagulation, fibrinolysis, and, activation and control mechanisms of Hageman factor-dependent pathways of, and their contribution to inflammatory response (Kaplan and Austen), 491

L

Leukocyte(s), human, antigenic release of histamine from, effect of Tris-buffered media and Tyrode physiologic saline solution on (Okazaki, T., et al.), 27
effect of tetracycline on phagocytic function of, *11* (Abst.)
histamine release from; modulation by cadmium ion (Vervloet, D., et al.), 262
in vivo effect of theophylline on histamine release from, *18* (Abst.)
kallikrein, release of, mediated by IgE, *42* (Abst.)
reactivity to alpha-gliadin in dermatitis herpetiformis and adult coeliac disease, *43* (Abst.)
Los Angeles student nurse study; daily symptom reporting and photochemical oxidants, *11* (Abst.)
Lung(s), effect on priming and desensitization phenomenon in; bronchoprovocation (Rosenthal, R. R., et al.), 338
of guinea pigs, delayed-type hypersensitivity reaction in, due to potassium dichromate (Miyamoto, T., et al.), 464
rabbit, light and immunofluorescent study of Arthus reaction in (Zavala, D. C., et al.), 450
Lymphocyte(s) defect, intrinsic, in Hodgkin's disease, analysis of phytohemagglutinin dose-response, *45* (Abst.)
human; similarity of B and T cell surface morphology, *21* (Abst.)
immunoglobulin D–bearing, in primary immunodeficiencies, *19* (Abst.)
responses, in vitro, in contact hypersensitivity, *9* (Abst.)
Lymphocyte(s)—Cont'd
unstimulated normal human peripheral, standardization of tissue culture conditions for; circardian rhythm of DNA synthesis (Carter, J. B., et al.), 191

M

Malignant disease, mortality from, in patients with asthma, *3* (Abst.)
Mastocytosis, systemic; control of lifelong diarrhea by ingested disodium cromoglycate, *5* (Abst.)
Maturation, changes in antigenic composition of short ragweed plant during (Larson and Gleich), 112
Metabolites, glycogenolytic, modification of histamine release by (Okazaki, T., et al.), 253
Methacholine, bronchial sensitivity to, in current and former asthmatic and allergic rhinitis patients and control subjects (Townley, R. G., et al.), 429
and histamine inhalations in asthmatics, comparison of (Spector and Farr), 308
Middle ear effusions, chronic; immunochemical and bacteriological investigations, *38* (Abst.)
Mites, dust, study of, in three Birmingham hospitals, *5* (Abst.)
Mitogens, other, histamine release from human leukocytes by Concanavalin A and, *4* (Abst.)
Monkey, fetal rhesus, ontogenic study of histamine and mast cells in (Schwartz, L. W., et al.), 381
Morphology, B and T cell surface, similarity of; human lymphocytes, *21* (Abst.)
Mortality, aging, cigarette habit and, relation of pulmonary function to; Framingham study, *26* (Abst.)
Mouse, enhancement of reaginic antibody formation in, by Concanavalin A, *42* (Abst.)
studies on thymic dependence of immunoglobulin classes of, *20* (Abst.)

N

Nervous system, nonadrenergic inhibitory, demonstration of, in trachea of guinea pig (Richardson and Bouchard), 473
Noradrenaline, response of lymphocyte guanyl cyclase to, *35* (Abst.)
Nurse study, Los Angeles student; daily symptom reporting and photochemical oxidants, *11* (Abst.)

O

Obituaries
Oscar Feinsilver, 80
Frank T. Joyce, 80
Ontogenic study of histamine and mast cells in fetal rhesus monkey (Schwartz, L. W., et al.), 381
Otorhinology and otolaryngology, *38*, *45* (Absts.)

P

Pathology, pharmacology, and physiology, *9, 18, 26, 35, 41* (Absts.)
Pea, green, isolation of allergens from (Malley, A., et al.), 282
Pediatrics, *16, 24, 34* (Absts.)
Phagocytic function of human leukocytes, effect of tetracycline on, *11* (Abst.)
Pharmacokinetics of dihydroxypropyltheophylline; basis for rational therapy (Simons, F. E. R., et al.), 347
Pharmacology, physiology, and pathology, *9, 18, 26, 35, 41* (Absts.)
Phytohemagglutinin dose-response, analysis of; intrinsic lymphocyte defect in Hodgkin's disease, *45* (Abst.)
Plasmapheresis, immunosuppressive treatment and, recovery from Goodpasture's syndrome after, *37* (Abst.)
Pneumonitis, granulomatous, experimental production of (Salvaggio, J., et al.,) 364
Pneumothorax and intermittent positive-pressure breathing, asthma mortality associated with, *16* (Abst.)
Pollinosis, ragweed, effect of cromolyn sodium powder as treatment for (Leiferman, K. M., et al.), 481
Potassium dichromate, delayed-type hypersensitivity reaction in lungs of guinea pigs due to (Miyamoto, T., et al.), 464
Presidential address; quality assurance (Siegel, S. C.), 161
Propranolol, response of lymphocyte guanyl cyclase to, *35* (Abst.)
Prostaglandin biosynthesis, relationship of inhibition of, by analgesics to asthma attacks in aspirin-sensitive patients, *2* (Abst.)
Psoriasis and control dermatoses, biopsies of; studies in immunodermatology, *33* (Abst.)
Psoriatric lesions, in vivo fixed IgG in stratum corneum of; studies in immunodermatology, *34* (Abst.)
Pulmonary function in asthmatic patients in remission, *8* (Abst.)
  relation to aging, cigarette habit and mortality; Framingham study, *26* (Abst.)
  in spontaneously breathing dogs with lower airway catheters during and after cigarette smoke exposure, *2* (Abst.)

Q

Quality assurance; presidential address (Siegel, S. C.), 161

R

Rabbit lung, Arthus reaction in, light and immunofluorescent study of (Zavala, D. C., et al.), 450
Radioallergosorbent test, detection of IgG antibody to deoxyribonucleic acid by (Shimizu, M., et al.), 356
  in diagnosis of reaginic allergy, *28* (Abst.)
Radiographic contrast medium, administration of (Patterson and Schatz), 328 (Correspondence)
Ragweed hay fever patients, quantitative inhalation bronchial challenge in; comparison with ragweed-allergic asthmatics (Bruce, C. A., et al.), 331
  plant, short, changes in antigenic composition of, during maturation (Larson and Gleich), 112
  pollinosis, effect of cromolyn sodium powder as treatment for (Leiferman, K. M., et al.), 481
Reaction, delayed-type hypersensitivity, in lungs of guinea pigs due to potassium dichromate (Miyamoto, T., et al.), 464
Reaginic activity, identification of IgG antibody as carrier of, in asthmatic patients (Bryant, D. H., et al.), 417
  allergy, radioallergosorbent test in diagnosis of, *28* (Abst.)
Renal arteriography following systemic reaction to contrast material (Miller, W. L., et al.), 291
Research workers, allergy-immunology laboratory and, immediate-type hypersensitivity to bean lectin source with commentary on occupational allergy (Kanellakes and Mathews), 407
Respiratory disease, subjects without, transtracheal aspiration studies in asthmatic patients in relapse with "infective" asthma and (Berman, S. Z., et al.), 206
Rhesus monkey, fetal, ontogenic study of histamine and mast cells in (Schwartz, L. W., et al.), 381
Rhinitis, allergic, intranasal beclomethasone dipropionate in, *25* (Abst.)
  patients, allergic, and control subjects, bronchial sensitivity to methacholine in (Townley, R. G., et al.), 429

S

Saccharin ingestion, episodic urticaria due to, 78 (Correspondence)
SECA, new mediator of human eosinophil response (Robinson and Miller), 317
Seminal fluid, human, allergy to, *10* (Abst.)
Serum(a) complement depletion, acute anaphylaxis associated with (Tannenbaum, H., et al.), 226
  IgE levels in normal populations, causes of variation in (Grundbacher, F. J.), 104

Serum(a)—Cont'd
from normal, allergic, and immunoglobulin-deficient children; primary interaction between antibody and components of Alternaria (Schumacher, M. J., et al.), 54
requirement, unique, for histamine release from human basophils, *43* (Abst.)
Sodium cromoglycate, atropine, and thymoxamine in PGF_2-induced bronchoconstriction in extrinsic asthma, *40* (Abst.)
intra-nasal, intra-nasal beclomethasone dipropionate and, comparative trial, *45* (Abst.)
Sputum of patients with bronchial asthma, appearance of basophils in, *32* (Abst.)
Stinging insect allergy; detection and clinical significance of venom IgE antibodies (Reisman, R. E., et al.), 443

T

T cell function, alteration of, in healthy persons with history of thymic x-irradiation (Rieger, C. H. L., et al.), 273
mediated responses in vitro, differences in effect of adult thymectomy on, *13* (Abst.)
suppressor, role of, in pathogenesis of common variable hypogammaglobulinaemia, *4* (Abst.)
Tartrazine, cross-reactivity with, subtypes, familial occurrence and; aspirin intolerance (Settipane and Pudupakkam), 215
Test, direct basophil degranulation and intracutaneous; comparison using food extracts (Soifer and Hirsch), 127
Tetracycline, effect of, on phagocytic function of human leukocytes, *11* (Abst.)
Theophylline, in vivo effect of, on histamine release from human leucocytes, *18* (Abst.)
Therapeutic, mechanical and, implications in chronicity of acute attacks of asthma (McFadden, E. R., Jr.), 18
procedures, diagnostic and, some untested, in clinical allergy (Lowell, F. C.), 168 (Editorial)
techniques, diagnostic and, employed in allergy, controversial, review of (Globert, T. M.), 170
Thrombocytopenia, chlorpheniramine-dependent, *41* (Abst.)
Thymectomy, adult, differences in effect of, on T-cell mediated responses in vitro, *13* (Abst.)
Thymic dependence of immunoglobulin classes of mouse, studies on, *20* (Abst.)
x-irradiation, alteration of T cell function in healthy persons with history of (Rieger, C. H. L., et al.), 273
Thymidine-2-^{14}C incorporation, spontaneous, standardization of tissue culture conditions for, by unstimulated normal human peripheral lymphocytes; circadian rhythm of DNA synthesis (Carter, J. B., et al.), 191
Thymosin activity in patients with cellular immunodeficiency, *30* (Abst.)
Thymoxamine, atropine, sodium cromoglycate and, in PGF_2-induced bronchoconstriction in extrinsic asthma, *40* (Abst.)
response of lymphocyte guanyl cyclase to, *35* (Abst.)
Thymus graft, successful, for T-cell deficiency in 6-year-old boy, *21* (Abst.)
Tissue culture conditions for spontaneous thymidine-2-^{14}C incorporation by unstimulated normal human peripheral lymphocytes, standardization of; circadian rhythm of DNA synthesis (Carter, J. B., et al.), 191
Trachea of guinea pig, demonstration of non-adrenergic inhibitory nervous system in (Richardson and Bouchard), 473
Transplant patient, T cell–depleted bone marrow, IgE antipolymyxin B antibody formation in (Lakin, J. D., et al.), 94
Triphosphatase activity, increased adenosine, in platelets of asthmatic children, *34* (Abst.)
Tris-buffered media and Tyrode physiologic saline solution, effect of, on antigenic release of histamine from human leukocytes (Okazaki, T., et al.), 27
Tyrode physiologic saline solution, effect of Tris-buffered media and, on antigenic release of histamine from human leukocytes (Okazaki, T., et al.), 27

U

Urticaria, episodic, due to saccharin ingestion, 78 (Correspondence)

V

Venom IgE antibodies, detection and clinical significance of; stinging insect allergy (Reisman, R. E., et al.), 443
Venous and arterial P_{co_2} mixed, *26* (Abst.)
Viruses in man, in vitro cellular immunity to, effect of hydrocortisone on, *44* (Abst.)

W

Wisconsin Allergy Society Fee and Practice Survey (Soifer, M. M., et al.), 117

X

X-irradiation, thymic, alteration of T cell function in healthy persons with history of (Rieger, C. H. L., et al.), 273
